

Our Mission

Evolve Outreach of Texas, LLC is a private, community-based mental health agency dedicated to supporting children, adults, and families through intensive, home-based services that foster lasting, holistic change. Our goal is to help individuals thrive by promoting emotional wellness and stability within the home and community.

We fulfill this mission through strong partnerships with human service agencies, schools, courts, probation departments, churches, hospitals, and other organizations across the state of Texas.

Our team is committed to providing a full continuum of care that addresses both the health and safety of those we serve. We empower individuals to adopt positive, permanent change—internally and externally—by helping them recognize their strengths, access resources, and engage in person-centered care that preserves dignity and promotes community inclusion.

Our Goals

- Increase emotional wellness and overall quality of life
- Promote recovery and support long-term independence
- Protect the dignity and rights of all individuals
- Support reintegration into school, family, and work settings
- Provide person-centered care that encourages participation

Individual Services

Our services for individuals focus on helping children, teens, and adults strengthen coping skills, manage behaviors, and develop emotional stability. We provide therapy, skills training, and behavior support tailored to each person's needs.

Family Services

We partner with families to strengthen relationships, improve communication, and manage challenges at home. Services include family therapy, crisis support, and connection to helpful community resources.

Medication Management

We help individuals safely manage mental health medications by coordinating with licensed professionals who provide oversight, education, and support for overall stability and well-being.

Crisis Intervention

We offer immediate response to individuals experiencing emotional or behavioral crises. Our team provides urgent support and stabilization in homes, schools, or the community.
